DETAILED ACTION

1. This Office Action is in response to the Preliminary Amendment filed February 12, 2001.

Claims 1-9 are pending.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2, 5-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilson et al. (U.S. 4,943,539).

Wilson et al. teaches a residue-free contact opening in a dielectric layer for a semiconductor device (fig.3-4, col. 4, lines 15-60).

Wilson does not specifically show the process as claimed. However, the patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." In re Thorpe, 777F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985) (citations omitted) MPEP 2113.

patentability of the process, and that an old or obvious product, whether claimed in "product by process" claims or not.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maria Guerrero whose telephone number is 703-305-0162.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Whitehead Jr. can be reached on 703-308-4940. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-7722 for regular communications and 703-308-7382 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0956.

3. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sirkin (U.S. 4,700,465).

Sirkin discloses a residue-free contact opening in a dielectric layer and a barrier layer for a semiconductor device (fig. 1B-1D, col. 2, lines 60-65, col. 3, lines 1-15).

Sirkin does not specifically show the process as claimed. However, the patentability of a product does not depend on its method of production.
